**SECTION A (20 MARKS)**

**COMPREHENSION AND SUMMARY**

1. a) Read the following passage carefully and answer the questions that follow.

COVID 19 is critically a dangerous disease caused by the virus called Corona. The disease started in China in 2019 as its area of origin then it spread to Italy finally it got further spread in several other nations with inclusion of African states. So far, the statistical reports indicate, corona has claimed thousands of people worldwide. This justifies how dangerous this disease has been.

Corona virus when gets into a person's body through nostrils or mouth, it first attacks the oesophagus and it stays there for a couple of days then it reproduces and multiplies more and the virus further invades to attack the lungs and in turn the virus causes a number of effects, in most cases it leads in difficulties in breathing after the respiratory system has been attacked. It weakens the immune system making the victim susceptible and vulnerable to other infections very easily.

The corona virus infected person starts sneezing abnormally along with hacking and whooping coughs, several flu, fatigue and severe headache as common symptoms. If a person begins to experience such symptoms, one should take precautionary measures very immediately so as to save and secure life and reduce mortality rate.

Corona virus has led to several social effects at large where the schools have been closed, wedding ceremonies, conferences, clubs and religious joint masses have been stopped especially those that call for rallies or huge gatherings so as to cut short the easy spread through interactions and contacts.

People are cautioned to take preventive measures by distancing themselves from people in gatherings, to use clean handkerchiefs when sneezing and coughing, to wash hands with pure clean water for several seconds and with a sanitizer, to avoid touching things touched by many people. This will help to prevent and minimize the possibility for the spread.

**2. Read the following passage then write five disadvantages that can be caused by the use of mobile phones.**

Mobile phones have the advantages that one can take the call almost anywhere instead of waiting at home for a phone call. However they may have several disadvantages. Secret information may be accessed by unintended people through mobile phones and this may lead to break up of social relations and leakage of restricted information such as examinations. Youths may waste a lot of their productive time chatting with friends or playing games. Sometimes they may access information which will end up destroying them morally. Worse still, the electromagnetic waves given out by phones can damage the brain.

Answers.

- i. ....
- ii. ....
- iii. ....
- iv. ....
- v. ....
